

WHAT WE DO TODAY, WORKING TOGETHER, CAN HELP KEEP FLORIDA WILD!

The Florida Wildlife Corridor has focused attention and inspired audiences across the nation to explore and protect wild Florida through extraordinary expeditions and award-winning documentaries, photography and media. Our dedication to and expertise in telling the story of wild Florida – the beauty of vibrant landscapes and the species that call them home – is growing increasingly important. We educate audiences about what is at risk, motivating action to protect wildlife corridors, connect existing conservation lands, and restore critical habitat pathways.

With 10 years of momentum and more than 2,000 miles trekked, we're leading the movement to protect wild Florida. Your involvement now is more important than ever as the Florida Wildlife Corridor embarks on its most important journey – to accelerate the rate of conservation in Florida by 10% each year.

We invite you to be a part of this ambitious venture.

JOIN TODAY TO HELP PROTECT 300,000 ACRES OF WILD FLORIDA BY 2020

The Corporate Connectors membership program engages the business community in the mission of permanently connecting and protecting the Florida Wildlife Corridor – a network of lands and waters that supports wildlife and people.

With your gift of \$1,000 or more, you join a respected network of Corporate Connectors who recognize the direct link between a healthy economy and a healthy environment:

- ✓ **CONNECT** with a cross-section of business and community leaders through networking opportunities.
- ✓ **ENGAGE** in organized nature outings and special events throughout Florida.
- ✓ **TAKE ACTION** on conservation initiatives that matter to your customers and employees.
- ✓ **INVEST** in the protection of critical linkages of lands and waters in Florida.

As a member of the Corporate Connectors, you will be an integral partner in the effort to protect the lands and waters that make Florida a great place to live, work and play. As our state grows by nearly 1,000 people a day, we lose 20 acres of land to development each hour! Unless we aggressively and strategically protect the most vital natural and agricultural lands, we will lose 5 million more acres by 2070. Those lands and waters are critical to support our population and countless visitors, a vibrant economy and spectacular and unique wildlife.
